We Accept

What makes Digital Improvements your best choice for audio and video post production services? We use professional equipment, proven methods and premium media (CD, DVD & Tape) so that you receive the best results for the best price. We treat your memories as if they were our own.

You can search around for a better price or faster service but beware what you get. Take a look at the [comparison](#) of our film transfer vs. some retail chain stores (a lot of whom outsource to the same company) to see just one example of "cheaper and faster".

"I was pleasantly surprised to find this type of video editing services at these reasonable prices, as I had been told by a friend in the television industry that they either didn't exist or would be extremely costly. The communication with Digital Improvements from my initial inquiry to the final

deliverable was always prompt and professional. I especially liked the sample image provided online that showed the various stages of edited improvement and their associated cost. The work was done in a timely manner and the results were great! I would certainly recommend Digital Improvements to anyone looking to edit or enhance their videos."

Terri M. - Michigan
